

CLOSER

It's just me and you
And the man in the moon shining down.
A blanket of stars up above
And a quilt on the ground,
I've waited so long
To get you all alone in the dark
I just wanna hold you
'Till I feel the beat of your heart.

I wanna get closer, closer
Closer than moonlight that your body's wrapped in tonight, yeah !
Closer to heaven than I've ever been in my life
Before the night's over, I wanna get closer.

My two aching arms have been longing to hold you this way, yeah !
These lips have been praying that I'd find the right words to say, ooh !
I don't want to own you or try to control how you feel
I want you to need me, believe me this feeling is real.

I wanna get closer, closer
Closer than moonlight that your body's wrapped in tonight, yeah !
Closer to heaven than I've ever been in my life
Before the night's over, I wanna get closer.

Oohh !

Yeah !

Oohh !
Closer to moonlight that your body's wrapped in tonight, oohh !
Closer to heaven than I've ever been in my life
Before the night's over, I wanna get closer.
Before the night's over, I wanna get closer.
Hmmm...
